

# Willows reception improvement works

## 12 Feb – 16 March 2018

On 12 February work starts on a four-week building project in reception to enhance the safety and security of our patients.

This includes fitting new doors and windows with a secure entry system and the enclosure of the stairs to the first floor.

**While work is underway** we will work hard to minimise any disruption. However the main entrance will be out of use. Visitors will be asked to use the Sycamore Ward entrance from 9am-5pm and via individual ward entrances outside these times. Entrance to Acacia Ward will be via Sycamore Ward at all times.

**Any questions?** Please talk to team manager Lynne Ward
