Introduction to It's Not About The Drawing

This course is all about learning and the mental health benefits of art such as drawing, colouring, and sketching.

It doesn't matter what your ability is, this course is suitable for all. It is proven that engaging with art can reduce feelings of stress and anxiety. Putting pencil to paper allows you to control what is being created. When you create something, your body releases dopamine, activating the reward centres of your brain. This sense of reward and achievement can help to reduce any stress that you may be feeling.

With support from Leicestershire Partnership NHS Trust's charity; Raising Health, we will help to provide most of the equipment that you need to participate. After attending this course, you are welcome to drop-in to our online monthly workshops.

Writing for Self-Expression helps a person to think about their experiences and put their thoughts and feelings into words.

These workshops will offer you an opportunity to reflect and write in a safe, friendly, and confidential atmosphere that fosters personal awareness and wellbeing. It doesn't matter whether or not you're used to writing, the exercises and conversation will help you to write about your life and experiences; from a few lines to a story, from a list to a poem, from all the things you've missed over the past couple of years, to all the things you've gained.

At each session, the facilitator (a professional writer) will read aloud a short piece of published writing (poetry or prose) and invite you to talk about how the words impact on you.
