

## **Flexible/Mobile Working**

### **Request**

#### **REQUEST:**

I am working on a project with the NHS Staff Survey and am looking at the underutilisation of flexible working arrangements. My task is to propose an action plan on how to combat this issue. I was wondering if you could help provide any information on how you have been successful in achieving these results and whether there was something that we could implement.

### **Our Response**

#### **OUR RESPONSE:**

We set up a 'Flexible and Mobile Working & IT Group' including representatives from all operational services. Please find attached the set of mobile working guidelines devised by the group.
