

Processing Records by LRI

Request

I would like the titles and copies of documents carrying the protocol and methods used by Leicester Royal Infirmary for the processing of patient records during the 1990s.

Prior to 1990, what record or log would have been made of any such destroyed:

A & E notes, X Rays

Where are records of notes destroyed in this period to be found?

Our Response

Unfortunately, we do not hold the information you have requested. However, you may wish to contact the University Hospitals of Leicester NHS Trust (UHL), who we believe will be able to help you. You can find out more about how to request information under the Freedom of Information Act from UHL at: <http://www.leicestershospitals.nhs.uk/freedomofinformation/>
