

## **Acute Coronary Syndrome Treatment**

### **Request**

We would like to understand how Leicestershire Partnership NHS Trust deals with the treatment of **Acute Coronary Syndrome (ACS)** and therefore we would like to request any documents that are used to cover this treatment area. In particular, if possible, we would like:

- Patient Care Pathways
- Treatment Protocols
- Prescribing Guidelines
- Disease Strategies

### **Our Response**

As a provider integrated mental health, learning disability and community health services we do not provide treatment for Acute Coronary Syndrome.
