

## **Staff engaged in working with individuals serving probation orders**

### **Request**

I would like to know the specific amount of resources that you commit to working only with those serving probation orders.

The reply to the question might be 'a community mental health nurse is available for advice one day a week in probation offices'. However other examples might include attendance by psychiatrists at MAPPA meetings and/or support to probation hostels.

Can you please give the funded hours by staff grade.

I realise that all probationers can access routine mental health services. I only want to know how you fund specific staff in probation.

### **Our Response**

Our Adult Mental Health Services provide the following resources to working with those serving probation orders:

Band 6 Nurse provides ½ day per week to the county probation service and ½ day per week to the city probation service.

0.5 wte Band 7 MAPPA lead

0.5 wte Band 3 MAPPA Administrator
