

## **Health for All Children (Hall 4)**

### **Request**

Regarding our client's Health Visitor 6-9 month review carried out in 1995, would the Health Visitors have been employed by the former Fosse Health Trust, for whom we understand you are now responsible. If so, could you please provide us with a complete set of the records.

Also, can you identify what local criteria/guidelines were in place in 1995 for Health Visitors carrying out examinations at 6-9 month reviews. In particular, can you confirm whether David Hall's "Health for Children" recommendations of 1991 were locally implemented in 1995 in the Fosse Health Trust.

### **Our Response**

We can confirm we do not hold the records you seek regarding your client's 6-9 month review, as the Health Visitors were not employed by Fosse Health Trust. However, we recommend you contact Barrow Health Centre, who may hold the information you require.

With regard to local criteria/guidelines in place in 1995, unfortunately, we do not hold this information, as there have been significant organisational changes since then. However, the "Health for All Children" (Hall 4) had not been published in 1995 and would, therefore, not have been implemented in Fosse Health Trust at that time.
