

Paperless or Paperlite NHS

Request

I am interested in looking at the technologies that are in place to reduce paper use within NHS organisations and what technologies you have in place or are implementing to reduce paper processes. To this end could you please answer the following questions:

1. *How many employees does your organization currently have?*
2. *Who currently is contracted to supply your main fleet of printing devices (MFD's)?*
3. *What brand of device do they supply you with?*
4. *How many devices do they supply you with?*
5. *Do they supply you with an print management software? If so which one?*
6. *Do they supply you with any scanning software (additional to the software native to the device)?*
7. *When is this contract (for your MFD's) due to expire?*
8. *What Document Management solution/s do you currently use within your organization?*
9. *What EPR (electronic patient record), also known as HER (electronic health record) do you have/will you roll out?*
10. *What PDF software do you pay for? And how many licenses do you pay for (an average per annum would be a good number here please)?*
11. *Who is the person within your organization responsible for the MFD's and the contract, what is their title, and their email address please?*

Our Response

1. 5409
2. Canon
3. Canon
4. This information is not held centrally, as these are supplied on an adhoc basis, dependent on the needs of services
5. Yes, Canon
6. No
7. Government framework RM 1692 has been extended to 31 October 2014.
8. Sharepoint
9. RiO, SystmOne, Maracis, Tiara,
10. None
11. Chris Elliott, Infrastructure Manager, Chris.Elliott@leics-his.nhs.uk
