

Consultants opted out of weekend working

Request and Response

- 1) The number of Consultants currently employed within your trust
- 2) The number of Consultants currently employed within your trust who have actively opted out of non-emergency weekend working.

OUR RESPONSE:

- 1) We currently have 106 Consultants employed
- 2) We have a number of different Consultant on call rotas to cover the weekends. The majority of doctors are contracted to an on call rota. None of our Consultants are contracted for non-emergency weekend working. They are therefore not required to opt out of something they are not required to do.
