

## **Patient Observation Software**

### **Request and Response**

1. Have you deployed commercial IT software products to automate your policies around patient observation and the capturing of vital signs for early-warning of deterioration?
2. If your answer to Question 1 is YES, please confirm the commercial names of these software products and confirm the date when their current support contracts will expire.

**OUR RESPONSE:** The Trust has a contract with Nervecentre until September 2016.
