

Involvement Centre

CLOSED

People on Olanzapine Injections ONLY

If you have been to the injection clinic please let the receptionist know. Your voucher is still valid.

Decision to limit access due to COVID-19

In order to keep our patients **as safe as possible** we are reducing **access** and **movement** within the **Bradgate Unit**.

What does this mean?

Unfortunately this means the involvement center will be closed to **Inpatients**, **Visitors**, and **Outpatients**.

When will you be open?

Things are changing quickly and we don't yet know when we'll be open again. If you would like to be kept up to date please leave your contact details.

Where can I go?

Government guidelines would recommend going home. If you can't get home yet, please speak to the receptionist.

If the Involvement Centre is your **safe place** and you're anxious about being unable to come here, please speak to a member of staff.

We may be able to arrange home phone-calls to check in with you, giving you someone to talk to while we are closed
