## Writing For Self-Expression

Writing for Self-Expression helps a person to think about their experiences and put their thoughts and feelings into words.

These workshops will offer you an opportunity to reflect and write in a safe, friendly, and confidential atmosphere that fosters personal awareness and wellbeing. The exercises and conversation will help you to write about your life and experiences; from a few lines to a story, from a list to a poem, from all the things you've missed over the past couple of years, to all the things you've gained.

At each session, the facilitator (a professional writer) will read aloud a short piece of published writing (poetry or prose) and invite you to talk about how the words impact on you.

This course is delivered by the Royal Literacy Fund.

## Reading Round

This course will involve the reading and discussion of four short stories and four poems across four weeks. We think of it as kitchen table literary-critic – an opportunity to hear great stories and interrogate them at an informal, conversational level – perfect for regular readers and non-readers alike.

It's a chance to develop a love for poetry and discussion, with new opportunities to hear/read stories as well as poems from new and challenging writers and to think about the texts in critical ways that build on or reignite reading habits.

There is no need to read anything in advance, simply turn up, listen to our tutor read aloud and then take part in a very open-ended discussion.

This course is delivered by the Royal Literacy Fund.

## Physical Health and Wellbeing

### 5 Ways to Wellbeing

The 5 ways to Wellbeing are a set of evidence-based actions which can enhance health and wellbeing.

They are: Connect; connecting with the people around you. Be active; find an activity that you enjoy. Keep learning; learning new skills can give you a sense of achievement. Give to others; even the smallest act can count, a thank you or a kind word or larger acts of kindness. Take notice; be more aware of the present moment; including your thoughts and feelings, your body, and the world around you.

This session explores each in turn and looks at the practical ways in which we can incorporate The Five Ways into our lives.
