

**Ref No. SG8125**

**Date: 30 April 2019**

**REQUEST: Please only complete this survey if your audiology service provides diagnostic hearing assessments AND hearing aid provision for children.** This may be hospital or community based. It is not necessary to complete this survey if your audiology service only provides hearing screening or assessments (such as primary tier, second tier or community services) and refers children on to other services for hearing aid provision when necessary.

**OUR RESPONSE:** I refer to your 2018/19 survey received July 2018 and our response sent 31 July 2018, reference FOI/1819/SG7036. As with our previous response, we are unable to complete the 2019/20 survey questionnaire as our Trust only provides initial assessment. Hearing aid provision and treatment is provided by University Hospitals of Leicester NHS Trust. Please direct this and any future such surveys to them at: <https://www.leicestershospitals.nhs.uk/aboutus/freedom-of-information/contact-us/>
