

Ref No. SG8614

Date: 23 August 2019

REQUEST:

1. The total of trust owned green space(s) available in 2019 in m2.
2. The total of trust owned green space(s) available in 2009 in m2.
3. What was the trusts total greenhouse gas emissions output (CO2e) in 2018/19 and the percentage change against 2008/9.

OUR RESPONSE: We have interpreted the definition of 'green space' as that provided by the Oxford Dictionary, i.e. an area of grass, trees, or other vegetation set apart for recreational or aesthetic purposes in an otherwise urban environment.

From our preliminary assessment, we estimate that compliance with your request would exceed the appropriate costs limit under section 12 of the Freedom of information Act 2000, currently £450, as we do not centrally record the information being requested at 1 above and would need to physically plot the detail onto plans.

Also, on 1 April 2011 Leicestershire Partnership NHS Trust merged with Leicester City and Leicestershire County and Rutland Community Health Services as a result of the national *Transforming Community Services* agenda making data for 2008/9 either not held, or potentially even more difficult to obtain. In addition, we do not hold the 'total' greenhouse gas emissions output for 2018/19 and could only provide emission data for gas and electricity for this period.
