

## March's Valued Star is...

### Russell Hadfield, clinical category manager!

Nominating Russell, Sarah Holliehead said: "I would like to nominate Russell because since he has joined the Trust (18 months ago) he has hit the ground running and delivered some really difficult projects that, before his arrival, weren't going anywhere.

He has built amazing relationships with colleagues across the Trust and his attention to detail has been pivotal in ensuring success. He has spent time and considerable effort understanding the clinical portfolio.

There have been challenging times for Russell, but he has navigated them with professionalism and courage. Specifically, his delivery of the enteral feeding tender has been phenomenal and he has managed to juggle national market issues with internal personalities and ensured that we have finally published a tender that is robust and professional."

Well done and thank you to Russell for living our values.

Angela Hillery recorded a personal message for Russell and thanked him 'for his attention to detail in some really difficult projects'. [Watch the video.](#)

Our staff are our greatest asset, many demonstrating fantastic dedication and care on a daily basis. The Valued Star awards help you to say thank you to them.
