12. Lessons Learned/Learning

Continuing themes in the investigation of category 4 Pressure Ulcers reported (these meet SI criteria):

- Inconsistent approach to correct Skin assessment
- Lack of timely holistic patient assessments
- Consideration for mental capacity assessments on initial admission to caseloads and when patient's conditions change

Continuing themes in the investigation of Falls that meet SI criteria:

- Poor compliance in undertaking falls risk assessments in a timely way
- Lack of compliance of undertaking lying & standing blood pressure
- Inconsistent application of the findings of the falls risk assessments i.e. supervision of the patients
- Use of bed rails assessment/falls risk

12. continued – Lessons Learned/Learning

Violence & aggression

- The level of Violence & Aggression across Mental Health, CAMHS & Learning Disability Inpatients continues to be of concern

Infection Control

- Is represented in all the directorates in the top 5 incidents reported either in one or both months; this is related to the high Covid19 reporting related to staff and less so for patients

Self-Harm

- Reduction high number of reported CAMHS inpatients self-harm incidents in November is related to patient movement and mix; the trend is still high equal to September 2020 proving challenging on resources and an indication the acuity of the patient group
