

# Welcome to LPT

Providing high quality, compassionate care and wellbeing for all.

Find out about all we are doing to keep our staff and patients safe throughout Covid-19.

# How we're keeping staff safe

## Standard Operating Procedures

We have clear guidance and information in place to keep our staff and patients safe, for example around the use of personal protective equipment (PPE) and Covid-secure environments, including zoning of wards.

## Extra Support

There is extra support in place on our Covid-19 positive wards, including additional staff, senior clinical leadership and additional infection prevention and control measures.

## Health and Wellbeing

We have a health and wellbeing offer for all of our staff, including mental health support and resources to help lead a healthy lifestyle.

## Covid-19 Testing and Vaccinations

We have weekly Covid-19 lateral flow testing available for our staff. In addition, all staff will be invited to have their Covid-19 vaccination to protect them against the virus.

# What our staff say

## **Jessica Sturgess:**

“I enjoy working for LPT, during my time working here I have been redeployed to a Covid-19 ward from my usual workplace in Musculoskeletal Outpatients. I was apprehensive at first however the team provided lots of support and reassurance. I hadn't worked on a ward in sometime so I have had to adapt to different ways of working which the team has provided additional training to support this.”

## **Louise Buckler:**

“I am happy working within LPT, I moved to LPT from an acute hospital. The team are very supportive especially throughout the Covid-19 pandemic. I work on the red ward, it has its challenges but it has been a continued learning experience which has helped me develop as a professional. If you are new to the ward the team are helpful and will support in introducing you to the ward and the PPE process to help you feel safe and protected.”

## **Hannah Marriage:**

“Being an agency nurse, to feel so much part of a team is very humbling. I feel welcomed and included in everything that happens within these teams. I feel very secure in my role and am made to feel appreciated in both locations of work”
