

Ref No. SG9311

Date: 17 March 2020

REQUEST: Do you routinely re-check the DBS for staff who do not undertake regulated activity? I understand they will probably have had a DBS check at the recruitment stage, but after that, what happens? Is the responsibility on the individual to report any offences?

OUR RESPONSE: Leicestershire Partnership NHS Trust does not routinely re-check any DBS as standard, unless a staff member moves internally to a job that requires a different level of DBS check. Staff are required to notify the Trust of any convictions.
