

Ref No. SG9280

Date: 20 March 2020

REQUEST: Please would you provide me with details of the meetings at which the decision was discussed and at some point made to close part or all of the Personality Disorder Service based at Leicester General Hospital. I would like please to have a copy of the minutes of these meetings and of any supporting documents that informed this decision.

If such meetings have also discussed cutting other specialist psychological therapy services provided by the Trust then could I also request a copy of those minutes and any supporting documents that informed the decision.

OUR RESPONSE: We do not hold the information requested, as Leicestershire Partnership NHS Trust is not planning to make any cuts to psychological therapies or personality disorders services.
