

Trust Board - 27.04.21

Board Performance Report and Metrics Review 2021-22

Purpose of the report

To provide the Board with the Board Performance Report for Month 12 and an overview of the revisions to the Performance Report metrics for 2021-22 following consultation with the Directorates.

Analysis of the issue

Moving forward into 2021-22, the review of metrics was undertaken with the Clinical Directorates and where possible, with those Corporate Directorates to ensure that they are still relevant, as well as ensuring that any new requirements underpinned by Directorate priorities are included in the revised report.

Proposals

All relevant national guidance has been appraised and the position reflected in the revised metrics alongside LLR System working where metrics were derived from Non-CCG contracts such as the Transforming Care Programme, in order that the Performance Report is all inclusive.

As previously outlined, it is intended that variation in performance should drive what is presented through the Report and is linked to the automation of the Performance Report using Oliksense.

There are still areas that have not been able to articulate a formal threshold/target but work remains ongoing to ensure that these can be defined and presented in the first of the revised Board Performance Reports for 2021-22.

Board Performance Report Revised Metrics

| 2020-21 Metric | Target where known | 2021-22 Metric | Target where known | Rationale for inclusion/removal |
|-------------------------|--------------------------|-----------------------|--------------------------|---------------------------------|
| Covid Hospital | | | | |
| Acquired Infections | | | | |
| Total Admissions: Total | | Total Admissions: | | No change to |
| covid +ve admissions; | | Total covid +ve | | reporting |
| Covid +ve admission | | admissions; Covid +ve | | requirements |
| rate | | admission rate | | |
| Covid +ve prior to | | Covid +ve prior to | | No change to |
| admission | | admission | | reporting |

| | | requirements |
|-----------------------|-----------------------|--------------|
| Covid +ve following | Covid +ve following | No change to |
| swab during admission | swab during admission | reporting |
