

MISSING INPATIENT'S & ABSENT WITHOUT LEAVE (AWOL- acronym used for patients detained under Mental Health Section) Policy

The policy describes the procedures to ensure the key agencies involved when **patients go missing from hospital**, particularly the Police and Leicestershire Partnership Trust, have an agreed co-ordinated response. The policy describes effective information, **reporting and finding missing/AWOL patients**, whilst also minimising unnecessary reporting and instances of patients repeatedly going missing.

Key Words:	AWOL, Missing, Absent

Equality Statement

Leicestershire Partnership NHS Trust (LPT) aims to design and implement policy documents that meet the diverse needs of our service, population and workforce, ensuring that none are placed at a disadvantage over others.

It takes into account the provisions of the Equality Act 2010 and promotes equal opportunities for all.

This document has been assessed to ensure that no one receives less favourable treatment on the protected characteristics of their age, disability, sex (gender), gender reassignment, sexual orientation, marriage and civil partnership, race, religion or belief, pregnancy and maternity.

In carrying out its functions, LPT must have due regard to the different needs of different protected equality groups in their area.

This applies to all the activities for which LPT is responsible, including policy development and review.

Due Regard

This policy has been screened in relation to paying due regard to the general duty of the Equality Act 2012 to eliminate unlawful discrimination, harassment, victimisation; advance equality of opportunity and foster good relations.

This is evidenced by the references and consideration given throughout the policy to how staff can ensure that patients/service users are actively engaged in their care and treatment, and the alternative communication methods that should be employed to take account of those with different needs from across all protected characteristics.

There is no likely adverse impact on staff or patient/service users from this policy.

Definitions that apply to this Policy

Missing Patient	An informal inpatient or a community patient whose whereabouts are unknown and there is cause for concern
AWOL	Refers to a patient who is detained or liable to be detained under the Mental Health Act 1983 (amended 2007), who leaves hospital Outside of the agreed leave with the Responsible Clinician or fails to return at the agreed time. See section 3.2.1
Informal	A patient who is being treated for a mental disorder but is not detained under the Mental Health Act 1983 (amended 2007); also known as patient without restrictions.
Due Regard	Having due regard for advancing equality involves: <ul style="list-style-type: none"> • Removing or minimising disadvantages suffered by people due to their protected characteristics. • Taking steps to meet the needs of people from protected groups where these are different from the needs of other people. • Encouraging people from protected groups to participate in public life or in other activities where their participation is disproportionately low.
Absent	A person not at a place where they are expected or required to be.

1.0. Purpose of the Policy

The objective of this policy and procedures is to ensure that the key agencies involved when patients go missing from hospital or home/ community placement, particularly the Police and Leicestershire Partnership Trust (LPT), have an agreed policy to provide a co-ordinated response. The need is to be effective in reporting and finding missing patients, whilst at the same time, minimising unnecessary reporting and instances of patients repeatedly going missing. The Police response is included at Appendix 6.

The policy is a source of information for the clinical front line staff and also contains a newly developed pre-Police and escalation checklist to ensure that key information is held in one place for the patient as part of the AWOL/Missing Patient escalation and reporting process. (Appendix 7) This has been developed in conjunction with Leicestershire Police LPT Liaison officers and wider colleagues.

2.0. Summary and Key Points

This policy describes the roles and responsibilities of LPT staff in the effective management of missing patients. The policy also describes the role of the Police working in partnership with LPT staff.

3.0. Introduction

3.1 Leicestershire Partnership Trust (referred to thereafter in this document as ‘the Trust’ or LPT) recognises that appropriate observation and supervision of patients is paramount to their care. However, despite these arrangements patients do sometimes go missing or AWOL (Absent without Leave), and it is important that there is no delay in implementing the following procedure to minimise any risks to the patient and others. A copy of this policy is to be readily available on line for access to staff via key documents at <https://www.leicspart.nhs.uk/about/key-documents/>

Patients cared for as inpatients in LPT under the Mental Health Act are in the following areas where AWOL could occur:

- Bradgate Mental Health Unit – Adult Acute Mental Health Wards – Ashby, Aston, Beaumont, Bosworth, Heather, Thornton and Watermead
- Psychiatric Intensive Care Units – Belvoir (male next to Bradgate Unit) and Griffin Ward (female located in the Herschel Prins Centre on the same site)
- Child & Adolescent Mental Health Services - Beacon Unit – opposite Bradgate Unit
- Mental Health Services Older Person (Kirby and Welford Wards in the Bennion Centre located on same site as Bradgate Unit & Coleman, Gwendolen and Wakerley Wards located at the Evington Centres on Leicester General Hospital site)
- Adult Eating Disorders Service (Langley Ward in the Bennion Centre)
- Learning Disability Assessment and Treatment Unit - Agnes Unit, located off Anstey Lane next to Gorse Hill Ambulance Station
- Adult Mental Health Rehabilitation Services - The Willows (4 wards – Acacia, Cedar, Sycamore and located near Arnold Lodge in and Stewart House (2 wards Skye and Aran) located in Narborough

- Mill Lodge – Huntington’s Disease Unit based next to Stewart House in Narborough

3.2 This policy provides guidance and procedures to be followed in two specific areas (as defined above), namely when patients are:

- Absent without leave as defined in the Mental Health Act (MHA) 1983 (amended 2007)
- Identified to be missing/or leave and are subject to care under the Mental Health Act.

4.0 Flowchart/Process

The flowchart and process for reporting for the Missing patient & AWOL Policy will follow in the next page.

Trust Missing Patient & AWOL Policy – Flow Diagram

Patient is found to be missing or AWOL from hospital or the Community

Nurse in Charge / CPN to establish to establish & re-affirm 'risk of harm to self or others' category (Low, Medium or High).

Keep record of events in Patients records. Any reasons not to take any of the following actions must be recorded in the notes. The 'Ward Report'/'Community Report' where this forms part of the handover should also be completed.

MHA Office/Safeguarding team to be informed where appropriate

- Carry out thorough search of ward and immediate area outside ward.
- Inform clinical duty manager
- Contact next of kin, any other known contacts
- Establish when last seen and what clothing worn/identifying features – check 'All About Me' if completed
- Keep relevant parties briefed on progress
- Check if patient is contactable by mobile phone or at known location; assess actions required
- Contact Police with clear information using Appendix 7 as a guide
- Record details of search and progress in patient records
- Inform patient's consultant or duty consultant (may have previously been informed as part of risk confirmation)
- For all patients an incident report (e-IRF) must be generated using the 'missing/AWOL' section on Ulysses Incident Reporting

Whilst patient remains Missing/AWOL

The team must review patient status and nominated person keep in contact with relevant parties at least on a daily basis

Patient returns from Missing/AWOL

All risk categories: Inform all relevant parties. Review Risk and level of observation and any agreed leave arrangements (section 17), complete Missing/AWOL section on Ulysses and send a copy to the locality Mental Health Act Administrator.

Contact RC or Duty doctor to assess patient's mental and physical health

Low risk: Contact On call doctor to review if judged necessary by the Nurse in Charge/CPN

Medium and High risk: Contact doctor to review.

Infection control considerations must be taken into account with COVID19 risk to others – follow current Infection & Prevention Guidelines/Policy

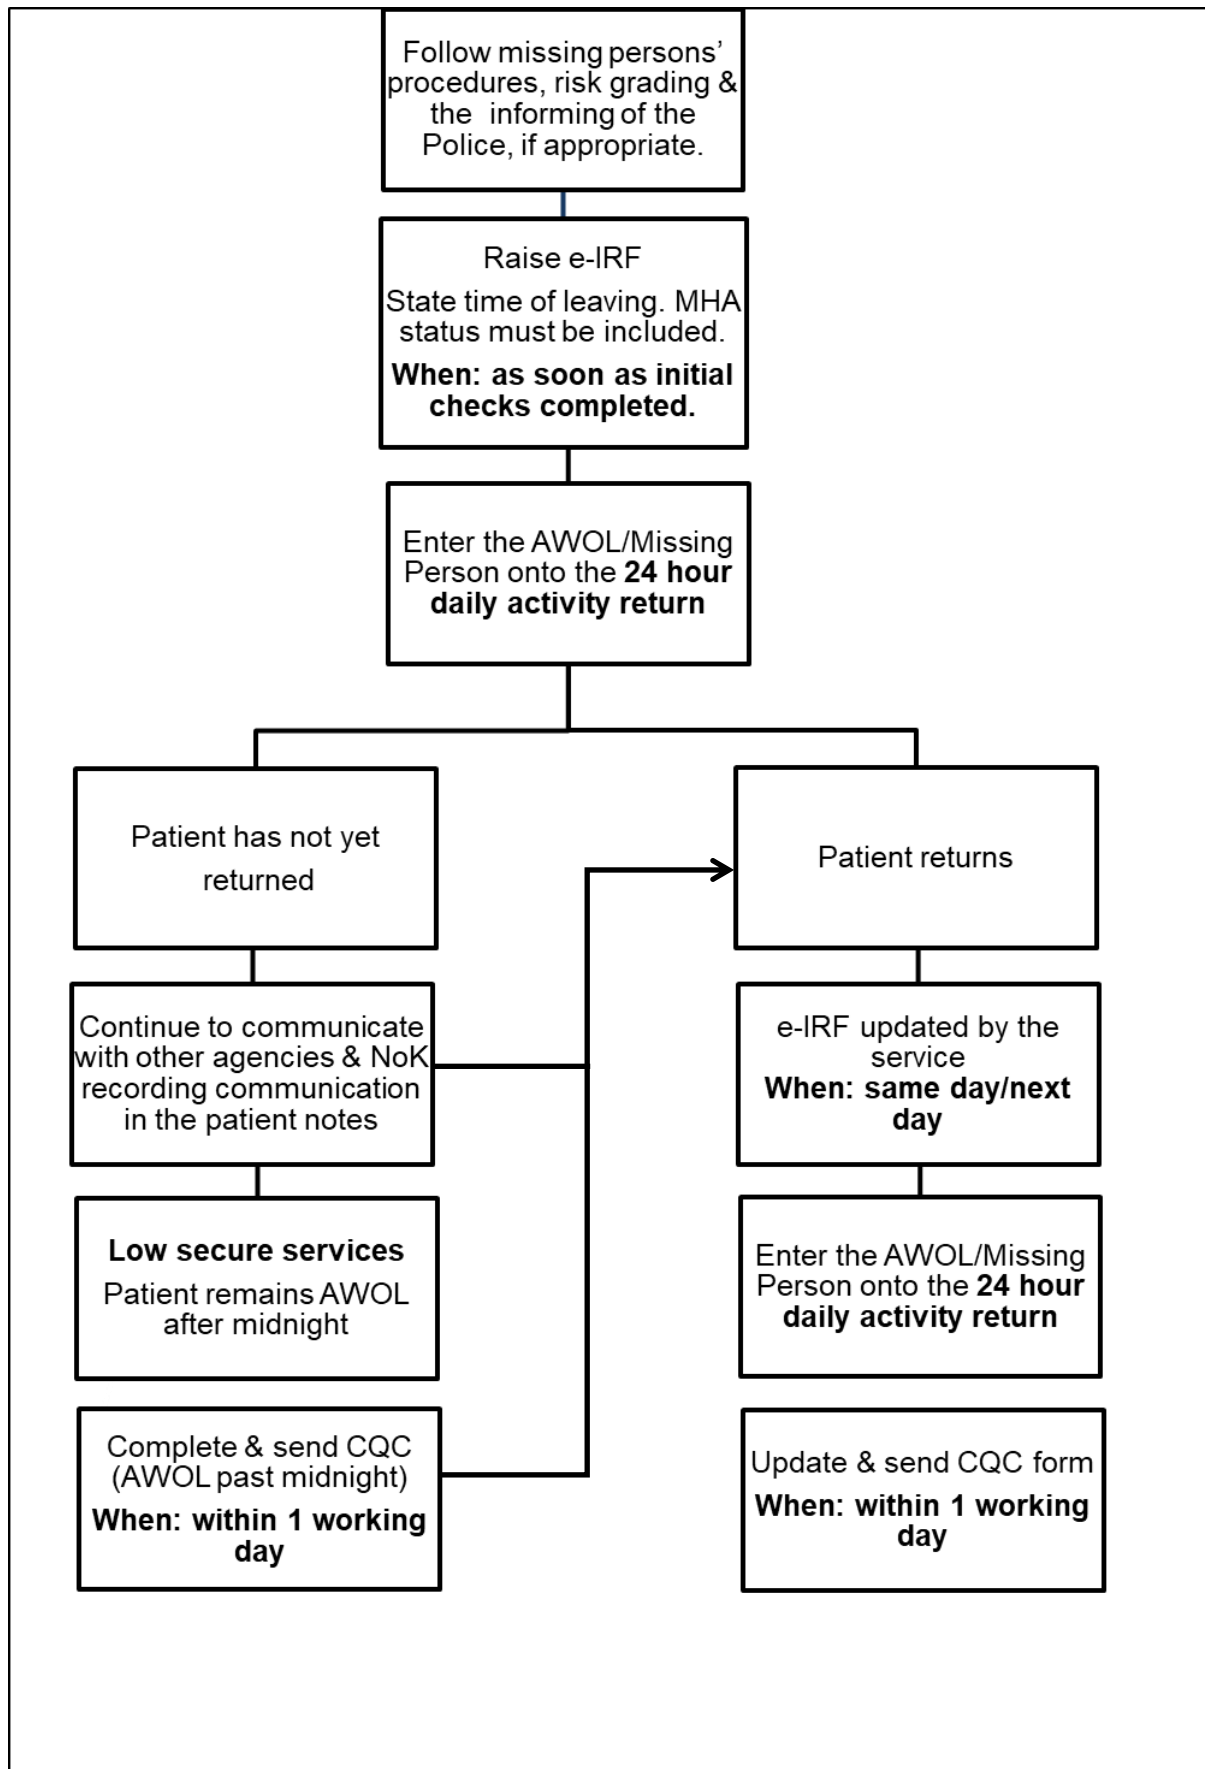

PROCESS FOR REPORTING a Person who is AWOL/MISSING

Definition

Missing person – Any Informal or community patient whose whereabouts are known (includes patient leaving against clinical advice, Mental Capacity Assessment (MCA) and Deprivation of Liberty Standards (DoLS).

AWOL – Any person, subject to MHA leaving the ward without permission, or not returning from leave at the agreed time.

The process for reporting for the Missing patient & AWOL Policy will follow in the next page.

5.0 Duties within the Organisation

5.1 The Trust Board has a legal responsibility for Trust policies and for ensuring that they are carried out effectively.

5.2 Trust Board Sub-committees have the responsibility for ratifying policies and protocols.

5.3. Chief Executive

As the accountable officer, the Chief Executive must ensure that responsibility for the management of missing or AWOL patients is delegated to an appropriate executive lead.

5.4 Director of Nursing and Allied Health Professionals

As nominated Executive Lead, they must ensure that appropriate and robust systems, processes and procedures are in place for missing and/or AWOL patients.

5.5 Directorate/Service Managers

The Service Managers are the Trust leads for the development, implementation and monitoring of this policy and for providing advice on measures in place for managing missing and/or AWOL patients.

5.6 Team Managers/Ward Managers/Clinical Duty Managers

All team/Ward managers have delegated responsibilities for the correct and consistent implementation and monitoring of this policy and the correct completion of documentation. To ensure that where possible 'All About Me' is completed on Adult Mental Health Wards.

5.7 Medical Team/ Responsible Clinician

The medical team are responsible for undertaking the necessary assessments of the mental and physical health of the patients and formulating the appropriate treatment plan in consultation with the wider multidisciplinary teams and agreeing and recording any section 17 leave for patients detained under the MHA.

5.8 Clinical Staff

All Trust staff who provide clinical care to patients are responsible for following the procedures in this policy and for ensuring that where possible the 'All About Me' Document is completed and kept up to date.

5.9 Local Governance Teams

Incidents of missing inpatients and inpatients that are absent without leave should be reviewed at local directorate quality and safety groups and reported quarterly to Patient Safety Improvement Group (PSIG).

6.0 Information

6.1 Nurse in Charge - Using Professional Judgment

It is the responsibility of the professional concerned with/identifying the missing or AWOL patient to use their professional judgment when considering the most appropriate action, taking into account any risks attached. The decision making process may include consultation with other key

Professionals / carers / relatives. The process and the decision must be clearly documented in the healthcare records.

6.2 Absent Without Leave (AWOL) Section 18 MHA 1983

6.2.1 A patient, who is detained, or liable to be detained, is considered to be AWOL when they:

- Have left the hospital in which they are detained without their absence being agreed (under section 17 of the Act) by their responsible clinician;
- Have failed to return to the hospital at the time required to do so by the condition of leave under section 17
- Are absent without permission from a place where they are required to reside as a condition of leave under section 17
- Have failed to return to the hospital when their leave under section 17 has been revoked
- Are patients on a community treatment order (CTO) (community patients) who have failed to attend hospital when recalled
- Are CTO patients who have absconded from hospital after being recalled there
- Are conditionally discharged restricted patients whom the Secretary of State for Justice has recalled to hospital; or
- Are guardianship patients who are absent without permission from the place where they are required to live by their guardian.
- Are patients awaiting assessment for detention under the MHA

6.2.2 Further guidance on section 17 is contained within the Trust's Mental Health Act Section 17 Procedural document: Leave of Absence from Hospital. <https://www.leicspart.nhs.uk/wp-content/uploads/2020/04/Mental-Health-Act-Section-17-Procedural-Document-exp-Dec-20.pdf>

6.3 Informal (Voluntary) Patients who wish to leave an inpatient setting

6.3.1 Informal, or voluntary, patients are patients who are receiving treatment in a hospital setting for a mental disorder but are not subject to the provisions of the Mental Health Act.

6.3.2 As informal patients are not detained their movements are not subject to the provisions of the law. However, the Trust continues to have a duty of care to informal patients and any requests to leave the ward should still be considered in terms of their mental health state and risk to self or others.

6.3.3 Where staff do have concerns, they should explain to the patient the rationale for staying on the ward, if the level of risk escalates i.e. the patient insists on leaving, consideration should be given to their mental health state and capacity to make informed decisions and the need for an assessment under the Mental Health Act, although it is important to remember this course of action should never be used as a threat to the patient. This is to ensure we are keeping the patient and others safe with the least restrictive practice including the application of the MHA 1983. If community services referral would have been anticipated as part of the discharge planning process this should be actioned as part of transferring care safely of a patient who wishes to leave against staff advice, a discharge summary to date should also be sent to the GP.

6.4 Absent Patients

- 6.4.1 Patients are considered absent when they are not in the place that they are expected or required to be but their location is known.
- 6.4.2 The Trust has the responsibility to attempt to repatriate the patient by encouraging them to return
- 6.4.3 The responsible clinician will be asked to review the level of risk if the patient persists in refusing to return. The multidisciplinary clinical team will discuss the risk and make a clinical judgement based on this discussion. The discussion and decision will be documented in the patient record.

6.5 Missing Patients

Patients are 'missing' when their whereabouts are not known, whether they are missing from an inpatient setting where they are not receiving treatment specifically for a mental disorder, are Informal (as described above) or are missing from a community setting, i.e. a community hospital or their usual residence. This includes patients subject to DOLs and MCA.

7.0 Risk Assessment

7.1 Identifying Risk for the Purposes of Reporting

For AWOL/missing persons the Trust uses the same three categories of clinical risk status as Leicestershire Constabulary, Low, Medium and High. This helps ensure that there is clarity of roles and expectation between the two organisations. Police must be informed of all indicators that apply and level of risk for each applicable indicator.

INDICATORS	Risk Level			Report to Police Urgently	
	HIGH	MEDIUM	LOW	Y	N
Extremely vulnerable	X			X	
Violent towards others	X			X	
Immediate Suicidal risk	X			X	
In possession of a weapon	X			X	
Danger to themselves/others	X			X	
Often goes missing from the Ward and does not return		X		X	
Often goes missing from the Ward and does return			x		x

- 7.1.1 Determining the category should be based on risk assessment, and the professional identifying the patient is missing/AWOL should make use of all relevant information, and seek advice and guidance from key members of the patient's care team including senior staff (Clinical Duty Managers Mental Health). Relevant information can include past history, current physical and mental state and known risks, the views and information friends or carers etc., physical characteristics and most recent appearance. Information describing the patient

who could be classed as extremely vulnerable due to previous history of risky behaviours e.g. arranging to meet unknown men for sex, physical health conditions requiring regular prescribed medication – anti epileptic./ diabetes/ heart etc.

- 7.1.2 The risk category must be subject to continued review until an outcome is achieved.

7.2 Low Risk Category

- 7.2.1 The patient may or may not be detained. The patient may be well known to the team and there are no significant risks on assessment, may have had authorised leave, and a known history of going missing/AWOL but returning without incident.
- 7.2.2 Low risk category patients will not be reported to the Police but inpatient service staff will contact relatives, attempt to contact the individual, and contact place of residence, etc. The management of the process will be entirely within the Trust, the Police will not be informed as this will initiate their missing patient process. The category should continue to be reviewed at reasonable intervals. Trust staff will make reasonable attempts to locate and return the patient to the service, or consider escalation to a higher risk category as required. The incident must be recorded on the Trust incident reporting system.

7.3 Medium Risk Category

- 7.3.1 The patient may or may not be detained. There may be sufficient concern identified that necessitates the need to know where the patient is, that they are safe, and that they may need to be returned to hospital by Trust staff or by police depending on the circumstances
- 7.3.2 Patients assessed as medium risk will be reported to the Police. The Police will require as much detail as possible to be made available to them - details of friends, contacts and other relevant information available (e.g. bank account details, photo identification). They will expect a comprehensive ward /hospital search to have been done. The Police may need to repeat the ward search as this is part of their core process. The incident must be recorded on the Trust incident reporting system.
- 7.3.3 The Police will determine which category applies to the patient under their process for categorisation. The patient will either be deemed as **'Missing'** or **'Absent'**:

Missing - Anyone whose whereabouts cannot be established and where the circumstances are out of character or the context suggests the person may be subject of crime or at risk of harm to themselves or another.

Absent - A person not at a place where they are expected or required to be. The Police will then determine any course of action to be taken.

7.4 High Risk Category

- 7.4.1 The patient may or may not be detained. High risk patients are considered to be in danger of harm to self or others and there is an immediate need to establish their whereabouts, and return to the ward. Patients assessed as high risk will always be reported to the Police.

7.4.2 Details of medication and particularly any potential impact of lack of regular medication will be required. The On Call Manager and Responsible Clinician/Duty Consultant will be informed of all medium and high risk instances. Director or Director on call should be notified. The incident must be recorded on the Trust incident reporting system.

8.0 Procedure for all Missing/AWOL/Absent patients

8.1 The following actions should be taken as soon as the patient is noted to be missing:

- Carry out a thorough search of the ward and immediate areas outside of the ward/unit/hospital. Establish when and where the person was last seen and record a physical description of the person, identifying features, clothes etc.
- Inform the Clinical Duty Manager (Bradgate Unit), Service co-ordinator, line manager or local on call manager The Manager on call can also be contacted at the discretion of the co-ordinator or local on call manager. The on call Manager has discretion to also inform the On call Director/on call consultant.
- Try and establish whereabouts by contacting the following addresses/telephone numbers:
- Carers at home address OR the hostel/care home from where the patient was admitted.
- The next-of-kin/nearest relative as defined by the Mental Health Act/Next of Kin Details as documented in the patient records.
- Any other known address/telephone numbers.
- Inform the Police and provide a detailed account of patient risk, whereabouts if known, physical description (provide photograph if available as per patient identity policy). Complete checklist pre contact with Police to ensure as much information available **see Appendix 3**
- Record the date and time of all events and search processes in the patient's record.
- Complete an incident report form (EIRF).
- **GP Communication** - The GP should be notified as soon possible by email/phone-call the following morning if a patient remains 'AWOL/Missing patient' overnight. At weekend the GP should be notified first thing Monday morning. A 'discharge summary' should be sent to GP as would be with a planned discharge for all.
- The clinical bed can be released for use if patient not returned after 24hours

8.2 Escorting Patients

- 8.2.1 Where a patient is being escorted and either attempts to leave or does leave the escort the action taken will depend on the outcome of an immediate risk assessment, consideration should be given to the patient's MHA status. The patient should be encouraged to return to the escort. Where this fails the above procedures for missing/AWOL patients should be implemented.
- 8.2.2 It is important to remember that the 'escort' should be made fully aware of any risks and known patterns of behaviour previously identified prior to commencing the escort duty. They should also be made aware of the action to be taken if the patient leaves. The escort policy should be read in conjunction with this policy.

8.3. Returning the patient

- 8.3.1 If the location of the patient is known and the patient is willing to return, the Trust is responsible for arranging their safe return. This will be based on assessment of risk.
- 8.3.2 The role of the Police should wherever possible only be to assist a suitably skilled and experienced mental health professional in returning the patient to hospital.
- 8.3.3 If a warrant/ court order is required see appendix 1 section 135

8.4 Following the return of the patient

- 8.4.1 All persons informed of the missing/AWOL patients must be informed of their return.
- 8.4.2 The patient record should be updated as soon as the patient returns and include the time of return.
- 8.4.3 The patient must be assessed in line with current COVID19 guidance in relation to isolation and testing and enquiry of contact during time AWOL/missing
- 8.4.4 The Duty Doctor or consultant/responsible clinician should be asked to attend and assess the mental and physical health of the patient. Together the Duty Doctor and nurse in charge of the ward should undertake a risk assessment review for that patient and take and record any appropriate action(s) (including MHA,DOLs and MCA), amending the care plan as necessary.
- 8.4.5 All instances of AWOL or missing patients should be discussed with the MDT at the next opportunity and at the ward round where appropriate both to inform clinical decision making in regard to the individual patient and to inform general practice on the ward.

8.5. Miscellany

Access to patients homes - where there are concerns about the well-being and safety of a community mental health patient and it is considered necessary to gain access to a patient's home, the care co-ordinator should liaise with the Approved Mental Health Professional (AMHP), the Responsible Clinician and the Police – ref. Section 135 Policy .

8.6 Patients subject to the Mental Health Act (MHA) 1983

- 8.6.1 The Mental Health Act Office should be informed of any patients who are AWOL.

8.6.2 Care Quality Commission AWOL notification for detained patients in secure services

8.6.2.1 It is best practice that the Trust informs the Care Quality Commission of any detained patient in a **secure** inpatient unit who is AWOL and that AWOL period extends over midnight.

8.6.2.2 The professional who is dealing with the AWOL patient is responsible for completing the CQC Notification form and forwarding the completed form to the CQC.

8.6.3 Patients who leave the country whilst AWOL

8.6.3.1 Detained patients who are AWOL and are found in Scotland, Wales, Northern Ireland, the Channel Islands and the Isle of Man can be retaken, held in custody and returned to this Trust by virtue of Section 88 and Section 138 of the Mental Health Act 1983.

8.6.3.2 The issue of arranging transport for the patient's safe return, and bearing the cost, should be negotiated with the authority responsible for the detention. In the case of a NHS hospital, it is usually the returning hospital that has the responsibility for arranging and funding transport.

8.6.3.3 In the case of hospitals and other bodies overseas, it is reasonable to expect them to act as Trust staff would; that is escort the patient to an airport where the patient can be met and a handover take place to Trust staff. However, this is very much subject to individual negotiation and there are no protocols binding on overseas countries.

8.6.3.4 Patients who identified as AWOL (are detained or liable to be detained) and leave the UK cease to be subject to English Law and are not therefore detained under the MHA whilst abroad. It follows that there is no power to return them under the MHA. It may be that such patients will be detained under Mental Health legislation in another country, in which case arrangements may be made for their return if the provisions of that legislation allow.

8.6.3.5 When AWOL patients go abroad; the Police should be notified in order that they can update their records and so that they can consider the need to advise the local foreign Police force if the risk is considered high.

9.0 Training /Local Induction needs

There is no training requirement identified within this policy; however this should be included in all local induction information.

10.0 Monitoring Compliance and Effectiveness

10.1 Compliance with this policy will be monitored through directorate quality and safety groups. The outcome of the monitoring will be reported to the part of the quarterly Patient Safety Report with exception reports to PSIG.

- 10.2 In addition, AWOL and missing person incidents are captured on the Ulysses incident reporting system.
- 10.4 Lessons learnt from instances should be shared through team meetings and /or trust wide learning events.

Appendix 1

Police Involvement & Section 135(2) Mental Health Act

1.0 Police Involvement

- 1.1 The Police have clearly defined responsibilities for 'taking into custody' patients who are AWOL (under section 18 of the Mental Health Act), however this may not always be necessary – see Identifying Risk at point 7.
- 1.2 Police assistance may be required in the return of missing patients not subject to section 18 and this would be dependent on the level of risk identified. Where this is the case, it should be remembered that the Trust has no legal basis to detain the patient at that time and any subsequent detention prior to a mental health act assessment would be done so under common law.
- 1.3 This would also apply to the Police unless they took the decision to formally detain the patient through separate legislation.
- 1.4 The return of the missing/AWOL patient should be done so in the least restrictive manner possible and with the support of appropriate professionals.
- 1.5 Staff in communication with the Police must provide information pertinent to the patient's known risk and welfare.

2.0 Section 135(2) of the Mental Health Act 1983 & Mental Health Act 2007 states:

"If it appears to a justice of the peace, on information on oath laid by any constable or other person who is authorised by or under this act to take a patient to anyplace, or to take into custody or retake a patient who is liable under the act to be so taken or retaken –

- a) that there is reasonable cause to believe that the patient is to be found on premises within the jurisdiction of the Justice; and
- b) that permission to the premises has been refused or that a refusal of such admission is apprehended.

The Justice may issue a warrant authorising any constable to enter the premises, if need be by force, and remove the patient".

The warrant enables the patient to be taken to any place, or taken into custody, or to be returned to hospital if already liable to be detained under the MHA. This will include patients who are liable to be detained but for whom conveyance to hospital has not been possible due to refusal of entry to the premises where they are at present. It also applies to a patient under guardianship who has absconded from a place where they are required to reside.

The constable may be accompanied by a registered medical practitioner or by any person authorised by or under the MHA to take or retake the patient.

Patients who are absent without leave (AWOL) from hospital or from the place where the patient is required to live under guardianship, can be retaken up to six months after going absent (if detained under S MHA), or until the expiry date of the current authority for their detention or guardianship, whichever is the later. (These

timescales do not apply to patients subject to restriction orders under S41 or s49 MHA. A patient cannot be forcibly return to hospital if the period for which he was liable to be detained under sections 2, 4,5(2), 5(4) MHA has expired.

There may be occasions when section 135(2) warrant is required for patients on supervised community treatment who fail to return to hospital upon being recalled, or abscond from the hospital following recall. The Police officer should be accompanied by a person with authority from the managers of the relevant hospital (or local authority, if applicable) to detain the patient and to take or return them to where they ought to be. It is good practice for this person to be a member of the multidisciplinary team responsible for the patient's care. The patient should be told why they are being detained, taken or retaken, before this happens.

When taking or retaking the person to a place under section 135 (2)warrant, the hospital managers or the local authority(as appropriate) should ensure that an ambulance or other transport is available to take the person to the place where they ought to be, in accordance with a locally agreed policy on the transport of patients under the act. The Police should not normally be needed to transport the person or to escort them for a section 135 warrant.

2.1 Standards for Practice

Warrants will only be executed by the constable if, in the event, entry to the premises can only be achieved by the use of the warrant. To that extent the level of Police intervention and force must be proportionate to the assessed level of risk.

When entering the person's property, the duly authorised health professional (or AMHP if applicable) will ensure the minimum number of professionals necessary to execute the provisions of s. 135(2) MHA in line with good practice.

2.2 Operational Procedures during working hours: Section 135 MHA

Having established that the grounds for an application are met, and that an application is justified in terms of the Human Rights Act, the duly authorised health professional (or AMHP) will contact Leicester Police to forewarn about the process and to discuss any actions needed. On receiving the request, Leicester Police will create a Serial Log, generating a unique reference number. Leicester Police and the duly authorised health professional/ AMHP will jointly risk assess the execution of the warrant, exploring all sources of risk knowledge available.

All agencies involved will enquire into the background of the patient (as known to his/her agency) and exchange relevant information, for example:

- The time and place of the proposed assessment;
- The identity of the person to be assessed;
- The premises to be entered;
- The type of any equipment required to effect an entry;
- The identity of the professional involved;
- The location of the place where they are being taken to; and

- The name and telephone contact number of the professional responsible for organising the assessment and the subsequent conveyance of the patient.

The duly authorised Health Care Professional/ AMHP will telephone the local Magistrates Court during working hours) in order that the Clerk to the Justices/Court Services legal adviser can arrange for the application to be heard by the Magistrate, and a warrant issued.

The duly authorised Health Care Professional/ AMHP will ensure that any intervention under section 135 (2) MHA can be justified with 'relevant and sufficient' evidence in order to be compatible with the Human Rights Act 1988 and the European Convention on Human Rights (ECHR). The justice of Peace will consider any application within the context of Article 5 of the Human Rights Act. Entry to a person's home must therefore, in all the circumstances of the situation, be a proportionate measure within the context of this legislation.

The decision to grant a warrant to a constable or to a duly authorised Health Care Professional/ AMHP by a court is usually in a process that is 'ex parte' – without giving notice to the person affected. The court will therefore need to be assured that, in accordance with Articles 5 and 6 of the ECHR, it is absolutely necessary that such an urgent and serious procedure is required in order to achieve the safety or protection of the person concerned. Wherever possible applications for a warrant should only be applied for within normal court hours. Applications out of hours should only be made if the application is urgent and it is intended to execute the warrant out of normal court hours.

The warrant issued will specify the name of the person sought (if known), the date of issue, and the address of the premises.

Three copies of the warrant will be made, with copies clearly marked as such:

- A** (coloured pink) will be left with the occupier of the premises searched or in his/ her absence, left with the person in charge of the premises, or if no such person is present, left in a prominent place on the premises.
- B** (coloured green) will be given to the Police executing the warrant
- C** (coloured yellow) will be retained by person in charge of place to which person is removed.

Entry to the place must take place within one calendar month of the date of issue of the warrant, the warrant can however only be serviced on one occasion

The original warrant (white front sheet) must be returned to the Clerk of the Justices by the duly authorised person/ AMHP as soon as possible after the month in which it expires, whether used or not.

2.3 Arrangements when executing a warrant under Section 135(2) MHA

Police officers will only apply for and obtain these particular warrants in very exceptional circumstances. Normally, a constable will be accompanied by an appropriately qualified mental health professional. The latter would include: a suitably qualified member of nursing staff from the ward, a doctor, or a suitably qualified member of the local community mental health service. Any such staff would need to be authorised to take or re-take the patient.

In line with good practice, the Care Programme Approach (CPA) care co-ordinator or suitably qualified named nurse should be involved, wherever possible, in obtaining and executing any warrant in relation to section 135 (2) MHA.

There is an expectation that ward staff will normally be responsible for the return of patients who are absent without leave from the hospital and staff who know the patient will be responsible when a Community Treatment Order is recalled. An AMHP will be involved if an application has been signed and the person is liable to detention but has not arrived at hospital.

There should not be delay because there is a dispute between professionals over who is the appropriate authorised person to attend the Magistrates Court to seek a warrant. Should this happen advice will be sought from a General Manager, or On Call Manager if out of hours, to make a decision and avoid any delay which may increase risk to the patient.

Where a warrant has been served under section 135 (2) MHA, the person shall be removed to a place where he/she is required to reside under the terms of his/her detention or guardianship.

When taking or retaking the person under section 135(2) warrant, hospital managers or the local authority(as appropriate) should ensure that an ambulance or other transport is available to take the person to the place where they ought to be, in accordance with a locally agreed policy on the transport of patients under the act. The Police should not normally be needed to transport the person or to escort them for a section 135 (2) warrant.

2.4 Operational Procedures outside working hours: Section 135(2) MHA

The granting of warrants outside normal Court working hours is considered to be an exceptional activity and should therefore be avoided. Having established that this is not the case, it will be necessary to contact one of the Court Services legal advisers before approaching a duty magistrate. All applications for out of hour's warrants must be screened first by a Court Services legal adviser. Leicester Police will advise of the contact telephone number for the duty adviser. This number can only be obtained from the Custody Sergeant.

The Court Services legal advisor will require the following:

- The name, address and telephone number of the person seeking the warrant;
- The nature of the application including the statutory provision and brief facts;
- The time when the application is sought to be made;
- The name(s) of the person(s) who will be attending to make the application;
and
- The time is intended to execute the warrant.

The Court Services legal advisor will advise of the location of the duty magistrate and confirm what actions are necessary. Staff will need to be prepared to show their official identity card to the duty magistrate.

Appendix 2

The Care Quality Commission (CQC) checks whether hospitals, care homes and care services are meeting government standards. Visit our website at www.cqc.org.uk.

Mental Health Act notifications

Providers registered under the Health and Social Care Act 2008 must notify the CQC of unauthorised absences of people detained or liable to be detained under the Mental Health Act 1983.

People liable to be detained include, for example, those on Section 17 leave of absence from hospital, or those held under short-term powers of Sections 5, 135 or 136. They must also report certified treatment under Section 61.

Absence without leave (AWOL) of a detained patient from detention in low, medium or high security services

Services that are designated as low, medium or high security are required to notify CQC of any absence without leave (AWOL) of a person detained or liable to be detained under the Mental Health Act 1983.

Services that are designated as low, medium or high security are also required to notify CQC of the return of a patient who has been AWOL. Part 2 of the form below deals with the return of AWOL patients: it is acceptable to return this part of the form separately from Part 1, which asks for notification of the initial absence.

Please complete the form using the following link:

[Mental Health Act notification: Absent without Leave \(AWOL\)](#)

Appendix 3

AWOL / Missing Patient Checklist Pre – Police Notification developed in conjunction with Leicestershire Police

Basic Generic Information: Reporting Ward				Patient under MHA? If yes – what section?	
OVERALL RISK ASSESSMENT: High, Medium, Low					
Given Name	Surname	'Nickname'	DOB	Last Known Address/Postcode	
				Next of Kin/meaningful contact made: Yes/No: Tel nos. – address if known	
Do they have access to car	Have they been missing before	Date & Time Last Seen (Where & by who?	Brief information of circumstances of going missing/what were they were doing	
Yes/No	Yes/No	Date: Time(24hr clock)		Diagnosis: What does this mean for them? Known to verbally & physically challenging? Yes/No Any links to Hate Crime/PREVENT?	

Has ward been checked/	Patient's bed area checked	Taken personal belongings & evidence of planning	Access to cash/bank cards	Do you have an idea where they could be/places they would go?											
Yes/No	Yes/No	Yes/No:	Yes/No	<p>Do they have access to mobile phone if yes have you called it? Number</p> <p>Do they have access to social media? Yes/no</p>											
Immediate building/outside of space checked Yes/NO	Is this out of character? Yes/No – describe?	What was there mood like in predisposing hours?	Any threats to harm self or others? Yes/No	<p>Description of patient – photo available from About Mee?</p> <table border="1" data-bbox="808 687 1823 1409"> <tr><td>Race/ skin Colour</td></tr> <tr><td>Sex</td></tr> <tr><td>Age</td></tr> <tr><td>Height (Specify whether ft/in or cm)</td></tr> <tr><td>Build</td></tr> <tr><td>Hairstyle / Colour</td></tr> <tr><td>Complexion/Make up</td></tr> <tr><td>Distinguishing features e.g. tattoos, marks, scars etc.</td></tr> <tr><td>Clothing (including shoes / hats / jewellery)</td></tr> <tr><td> </td></tr> <tr><td>Carrying anything that could be used as weapon</td></tr> </table>	Race/ skin Colour	Sex	Age	Height (Specify whether ft/in or cm)	Build	Hairstyle / Colour	Complexion/Make up	Distinguishing features e.g. tattoos, marks, scars etc.	Clothing (including shoes / hats / jewellery)		Carrying anything that could be used as weapon

Appendix 4

The NHS Constitution

The NHS will provide a universal service for all based on clinical need, not ability to pay. The NHS will provide a comprehensive range of services

Shape its services around the needs and preferences of individual patients, their families and their carers	<input type="checkbox"/>
Respond to different needs of different sectors of the population	<input type="checkbox"/>
Work continuously to improve quality services and to minimise errors	<input type="checkbox"/>
Support and value its staff	<input type="checkbox"/>
Work together with others to ensure a seamless service for patients	<input type="checkbox"/>
Help keep people healthy and work to reduce health inequalities	<input type="checkbox"/>
Respect the confidentiality of individual patients and provide open access to information about services, treatment and performance	<input type="checkbox"/>

Appendix 5 Stakeholders and Consultation

Key individuals involved in developing the original document

Name	Designation	
Vicky McDonnell	Trust Lead – Risk and patient safety	
Steve Walls	Local Security Management Specialist	
Sam Marandi	Ward Manager, Bradgate Unit	
Sarah Latham	Matron, Community Hospitals	
Fran Guerra	Service Manager-CAMHS inpatients	
Alison Wheelton	Senior MHA Administrator	
Zayad Saumtally	Matron MHSOP inpatients	

Circulated to the following individuals for comment December 2020, January & February 2021. Further consultation with LC June 2021

Name	Designation	
PSIG Group (Trust wide)	As of November 2020	
Michelle Churchard- Smith	Head of Nursing, AMH/LD Services	
Saskia Falope	Team Manager Bed Management Team/CAP	
Tracy Ward	Head of Patient Safety	
Avinash Hiremath	Medical Director	
Leon Herbert	Prevent Lead	
Bernard Masanga	Ward Manager BMHU	
Jodhun Persand	Matron MHSOP	
Emily Jarvis	Matron MHSOP	
Jane Capes	Matron BMHU	
Liz Compton	Matron BMHU	
Jo Nicholls	Patient Safety Manager	
Samantha Roost	Senior Health Safety & Security Advisor	
Dean Cessford	Specialist Safeguarding Named Nurse (RMN)	
Alison Wheelton	MHA Lead	
Paul Howley	Matron in patient CAMHS (Beacon)	
Carmela Senogles	Specialist Safeguarding Named Nurse (RMN)	

Louise Evans	Deputy Head of Nursing FYPC	
Gordon King	Director of DMH	
Louise Short	Acute DMH Inpatient Manager	
Fern Barrell	Risk Manager, Assurance	
Jonathan Puckey	Leicestershire Constabulary (LC)Link Police Officer Mental Health Services	
Zayad Saumtally	Deputy of Nursing MHSOP	
Nikki Beacher	Head of Service, Community Health Services	
Michelle Gray	Ward Manager - Willows	
Sarah Le Butt	Team Manager - Willows	
Mark Grigg	Forensic Services Inpatient Manager (HP)	
Francine Bailey/Clare Pope	Team manager/Matron Agnes Unit	
Kerry O'Reardon	Serious Incidents Lead, AMH&LD	
Sarah Latham (May 2021)	Deputy Head of Nursing CHS	
Bob Lovegrove	Security Management Specialist (pre –retirement June 2021)	
Andy Lee	Security Management Specialist	

Additional update Dec 2021 from Saskya Falope, Dave Hunt re patients under CTO

Additional update Nov 2021 from Alison Wheelton re overseas AWOL

Appendix 6

DATA PRIVACY IMPACT ASSESSMENT SCREENING

<p>Data Privacy impact assessment (DPIAs) are a tool which can help organisations identify the most effective way to comply with their data protection obligations and meet Individual's expectations of privacy.</p> <p>The following screening questions will help the Trust determine if there are any privacy issues associated with the implementation of the Policy. Answering 'yes' to any of these questions is an indication that a DPIA may be a useful exercise. An explanation for the answers will assist with the determination as to whether a full DPIA is required which will require senior management support, at this stage the Head of Data Privacy must be involved.</p>		
Name of Document:	MISSING INPATIENT'S & ABSENT WITHOUT LEAVE (AWOL-acronym used for patients detained under Mental Health Section) Policy	
Completed by:	Sue Arnold	
Job title	Corporate Patient Safety Team/Interim Patient Safety Incident Investigation Lead (DMH)	Date 12.01.2022
Screening Questions	Yes / No	Explanatory Note
1. Will the process described in the document involve the collection of new information about individuals? This is information in excess of what is required to carry out the process described within the document.	No	
2. Will the process described in the document compel individuals to provide information about them? This is information in excess of what is required to carry out the process described within the document.	No	
3. Will information about individuals be disclosed to organisations or people who have not previously had routine access to the information as part of the process described in this document?	Yes	Information could be shared with individuals within LPT for the purpose of understanding themes but no patient identification details.
4. Are you using information about individuals for a purpose it is not currently used for, or in a way it is not currently used?	No	
5. Does the process outlined in this document involve the use of new technology which might be perceived as being privacy intrusive? For example, the use of biometrics.	Yes	Any email correspondence is secure and anonymised.
6. Will the process outlined in this document result in decisions being made or action taken against individuals in ways which can have a significant impact on them?	No	
7. As part of the process outlined in this document, is the information about individuals of a kind particularly likely to raise privacy concerns or expectations? For examples, health records, criminal records or other information that people would consider to be particularly private.	Yes	Patient information will shared in a secure database to record incidents,
8. Will the process require you to contact individuals in ways which they may find intrusive?	No	
<p>If the answer to any of these questions is 'Yes' please contact the Data Privacy Team via Lpt.dataprivacy@nhs.net</p> <p>In this case, ratification of a procedural document will not take place until review by the Head of Data Privacy.</p>		

Data Privacy approval name:	Sam Kirkland, Head of Data Privacy
Date of approval	12/01/2022

Acknowledgement: This is based on the work of Princess Alexandra Hospital NHS Trust

Data Privacy Impact Screening Guidance Notes

The following guidance notes should provide an explanation of the context for the screening questions and therefore assist you in determining your responses.

Question 1: Some policies will support underpinning processes and procedures. This question asks the policy author to consider whether through the implementation of the policy/procedure, will introduce the need to collect information that would not have previously been collected.

Question 2: This question asks the policy author if as part of the implementation of the policy/procedure, the process involves service users/staff providing information about them, over and above what we would normally collect

Question 3: This questions asks the policy author if the process or procedure underpinning the policy includes the need to share information with other organisations or groups of staff, who would not previously have received or had access to this information.

Question 4: This question asks the author to consider whether the underpinning processes and procedures involve using information that is collected and used, in ways that changes the purpose for the collection e.g. not for direct care purposes, but for research or planning

Question 5: This question asks the author to consider whether the underpinning processes or procedures involve the use of technology to either collect or use the information. This does not need to be a new technology, but whether a particular technology is being used to process the information e.g. use of email for communicating with service users as a primary means of contact

Question 6: This question asks the author to consider whether any underpinning processes or procedures outlined in the document support a decision making process that may lead to certain actions being taken in relation to the service user/staff member, which may have a significant privacy impact on them

Question 7: This question asks the author to consider whether any of the underpinning processes set out how information about service users/staff members may intrude on their privacy rights e.g. does the process involve the using specific types of special category data (previously known as sensitive personal data)

Question 8: This question asks the author to consider whether any part of the underpinning process(es) involves the need to contact service users/staff in ways that they may find intrusive e.g. using an application based communication such as WhatsApp

If you have any further questions about how to answer any specific questions on the screening tool, please contact the Data Privacy Team via lpd.dataprivacy@nhs.net

Due Regard Screening Template

Section 1			
Name of activity/proposal		Missing Patients and AWOL Policy	
Date Screening commenced		19_01_22	
Directorate / Service carrying out the assessment		Patient Safety Team	
Name and role of person undertaking this Due Regard (Equality Analysis)		Tracy Ward, Head of Patient Safety	
Give an overview of the aims, objectives and purpose of the proposal:			
AIMS: This policy describes the procedures to ensure the key agencies involved when patients go missing from hospital, particularly the Police and Leicestershire Partnership Trust, have an agreed co-ordinated response.			
OBJECTIVES: The policy describes effective information, reporting and finding missing/AWOL patients, whilst also minimising unnecessary reporting and instances of patients repeatedly going missing.			
Section 2			
Protected Characteristic	If the proposal/s have a positive or negative impact please give brief details		
Age			
Disability			
Gender reassignment			
Marriage & Civil Partnership			
Pregnancy & Maternity			
Race			
Religion and Belief			
Sex			
Sexual Orientation			
Other equality groups?			
Section 3			
Does this activity propose major changes in terms of scale or significance for LPT? For example, is there a clear indication that, although the proposal is minor it is likely to have a major affect for people from an equality group/s? Please <u>tick</u> appropriate box below.			
Yes		No	
High risk: Complete a full EIA starting click here to proceed to Part B		Low risk: Go to Section 4.	√
Section 4			
If this proposal is low risk please give evidence or justification for how you reached this decision:			
Equality monitoring has been incorporated in the overall policy compliance process which aims to provide assurance that any potential adverse impact on any protected group during the implementation of the policy and associated procedures are identified and removed at the earliest opportunity.			
Signed by reviewer/assessor	Sue Arnold	Date	19_01_22
<i>Sign off that this proposal is low risk and does not require a full Equality Analysis</i>			

Head of Service Signed	<i>T. Ward</i>	Date	19_01_22
