## LPT Urgent & Emergency Care LLR System Inspection feedback (Psychiatric Liaison Service at LRI)

#### Purpose of the report

The purpose of this report is to share feedback from the CQC following feedback received as part of LLR CQC system review on Urgent and Emergency care which focused upon the Psychiatric Liaison Service, run by Leicester Partnership Trust, based at Leicester Royal Infirmary Hospital.

#### Analysis of the issue

The CQC are carrying out a system wide review of Urgent & Emergency Health and Care services in Leicester, Leicestershire and Rutland. As part of this review, they recently carried out an unannounced and focused inspection of the Psychiatric Liaison Service, run by Leicester Partnership Trust, based at Leicester Royal Infirmary Hospital.

A copy of the initial findings from this inspection accompanies this report.

#### **Proposal**

The key initial findings from the unannounced inspection of the Psychiatric Liaison Service recognise:

- A full complement of staff with no vacancies.
- All areas were very clean, fresh smelling, fit for purpose and access to 'high risk' room in adult ED.
- A high level of training, supervision and appraisal compliance.
- The team met agreed service standards.
- Staff working within best practice guidance.
- Staff participated in daily in Bed Management meetings and meetings between stakeholders to ensure flow between services was effective.
- Staff were proud to work within the team and showcase their work they did. A high level of staff morale and evidence of effective team and inter agency working.
- Staff were constantly looking at ways to improve their work and the patient experience.

#### Areas to address

 Average wait times for patients presenting with a mental health crisis or with specific mental health needs

The operational teams are reviewing their waiting time as an ongoing action and this will be tracked through the Directorate Management Team meetings.

### **Decision required**

The Trust Board is asked to note the feedback received following this unannounced inspection.

#### **Governance table**
