Community Forensic Learning Disability Team

Some people will need someone to help them to go through this information so that they understand it. This person may be a member of staff, someone from your family or a friend.

We are an NHS team that helps people over the age of 18 with a learning disability who may have been in trouble with the police or court.

We will help you if:

- you are doing things that break the law and might mean:
 - you are arrested,
 - have to go to court
 - may go to prison
- examples of breaking the law might be:
 - sex offending, which means doing something sexual to another person that they do not want
 - hurting other people
 - setting fire to things

We will help you if:

- you have been in a secure hospital or been to prison because you have broken the law.
- we can help you settle back into the community and try to make sure you do not break the law again.

What we do

- Name
- Job

When we meet you we will say:

- what our name is
- what our job is

We will use assessments to find out more about you and how we can help.

If you are in a secure hospital or prison we will help you leave by:

- helping to find the right place to live
- planning how to keep everyone safe
- giving support after the move

Working with you

We will work with other people to support you.
This could include your:

- family/friends
- carer
- doctor
- hospital
- social worker
- other people in the learning disability team

Who talked about working with the forensic team?
(practitioner, individual, family, carers etc.)

The forensic team helps people to:

Stay safe in the community

We will make a plan together about how to help you.

If you are already working with the forensic team
we will tell you how you can get in touch with us.

If you are waiting to work with us and you have a
question, you can contact us:
