All LPT Policies can be provided in large print or Braille formats, if requested, and an interpreting service is available to individuals of different nationalities who require them. If you require a copy of this policy in any other format please contact the Corporate Assurance Team.

Did you print this document yourself?

Please be advised that the Trust discourages the retention of hard copies of policies and can only guarantee that the policy on the Trust website is the most up-to-date version.

Definitions that apply to this Policy

All procedural documents should have a definition of terms to ensure staff have clarity of purpose (refer to Policy for Policies for assistance)

Accommodation	Physical space for occupants of a building
Statutory	By statute. A statute is a written law passed by a legislating body.
Estates Strategy	A masterplan that aligns on a best fit basis the health and social care economy, clinical / service strategy and capacity plan.
Tenancy	Occupation of property or land for a fixed period of time in return for an agreed rent.
Compliance	Compliance is a state of being in accordance with established guidelines, specifications, or legislation
Working Environment	Location where a task is completed. This involves the physical geographical location as well as the immediate surroundings of the workplace.
EFM – Estates and Facilities Management	Provider of professional property hard and soft facilities management services and advice within LPT since 1 st November 2022
Non-occupancy	An area / space within a work environment currently not in use.
Property Portfolio	The unified management of a group of properties which are held in one ownership
Due Regard	Having due regard for advancing equality involves: • Removing or minimising disadvantages suffered by people due to their protected characteristics. • Taking steps to meet the needs of people from protected groups where these are different from the needs of other people. • Encouraging people from protected groups to participate in public life or in other activities where their participation is disproportionately low.
HBN	Health Building Note

Equality Statement

Leicestershire Partnership NHS Trust (LPT) aims to design and implement policy documents that meet the diverse needs of our service, population and workforce, ensuring that none are placed at a disadvantage over others.

It takes into account the provisions of the Equality Act 2010 and promotes equal opportunities for all.

This document has been assessed to ensure that no one receives less favourable treatment on the protected characteristics of their age, disability, sex (gender), gender reassignment, sexual orientation, marriage and civil partnership, race, religion or belief, pregnancy and maternity.

In carrying out its functions, LPT must have due regard to the different needs of different protected equality groups in their area.

This applies to all the activities for which LPT is responsible, including policy development and review.

Due Regard

The Trusts commitment to equality means that this policy has been screened in relation to paying due regard to the Public Sector Equality Duty as set out in the Equality Act 2010 to eliminate unlawful discrimination, harassment, victimisation; advance equality of opportunity and foster good relations.

A due regard review found the activity outlined in the document to be equality neutral because this policy describes the arrangements in place for all staff across the Trust. All staff identified as DSE 'Users' or 'Operators' will receive appropriate training to minimise all foreseeable risks of harm.

1.0 Introduction

Leicestershire Partnership NHS Trust has a wide range of teams and services operating from a large number of properties making up our overall estate. Some of these are owned by the Trust, some are leased, either formally or informally. The properties offer a wide range of accommodation, which are, in the main, purpose built for their current use.

The Trust will adhere to the policy, guidance and principles contained in HBN 00-08 Part A (The efficient management of healthcare estates and facilities) and Part B (supplementary information) published 2014 to manage the estate.

The Trust is developing an Estates Strategy which envisages a review and change to the Trust's property profile over the coming years. This means many staff, teams, departments and services may find themselves in different accommodation from what they currently occupy.

Any property occupied by the Trust costs money, whether owned by the Trust or not. Currently, around 10% of the Trusts overall income is required to operate and maintain the estate (not including capital spending) - any money spent on property detracts from what can be spent on services, so the Trust has an obligation to ensure it operates the most efficient utilisation of the estate it occupies (i.e. seeks to maximise utilisation of all assets held) and will continually review whether different configurations of estate can release resources.

In order to facilitate effective management of that change, the Trust requires a framework covering how decisions on the allocation and alteration (both physical and cosmetic) of accommodation are made, and the principles that govern those decisions. This policy provides that framework.

2.0 Purpose

It is the intention of this policy to provide a framework for the management of all accommodation to ensure the most efficient utilisation of space available within Hospitals, Health Centres and all team and office bases.

The policy will support and be supported by the Estates Strategy so that fit for purpose accommodation can be provided and to ensure that all space is not over or under-utilised.

3.0 Organisational Responsibilities

All staff are responsible for complying with the organisations' arrangements for the management of accommodation, including the implementation of local management controls. In order to comply with this policy staff must be aware

of the lines of communication (and levels of responsibility) which exist to ensure accommodation is managed effectively and efficiently.

In order to ensure that all accommodation is managed efficiently within the Trust, the following organisational responsibilities have been allocated.

3.1 Director with Responsibility for Estates and Property Management

The Director with responsibility for estates and property management is the Associate Director of Estates and Facilities.

This responsibility covers all matters relating to accommodation management and includes ensuring that all properties are utilised and managed effectively.

The use of accommodation is an important priority for the Trust and all accommodation will be managed through comprehensive policies and procedures that are effectively implemented and appropriately resourced within the overall financial position of the Trust.

The Director with responsibility will ensure that financial resources are made available to support this policy based upon a risk assessment of priorities.

The Director is assisted by the Estates and Facilities Management Team, the Strategic Property Group (SPG) and the Estates and Medical Equipment Committee (EMEC).

The Space and Property Manager, Property Surveyor and Property Officers will have overall responsibility for the administration and management of accommodation and they are members of the SPG which reports into EMEC.

3.2 Management of Services

The SPG will have overall responsibility for formulating, oversight and monitoring of this policy.

The Space and Property Manager, Property Surveyor and the Property Officers have responsibility to implement this policy and will facilitate and coordinate all aspects of accommodation management in conjunction with the appropriate managers.

3.3 Space and Property Manager, Property Surveyor and Property Officers

Space and Property Manager/Property Officers are responsible for :

- Effective space utilisation and operational site services within designated premises.
- Support to ensure space occupied is suitable and sufficient for the needs of the service in accordance with directorate service development initiatives.
- Identify through inspections and audits validity of occupancy and that appropriate risk assessments have been undertaken.
- Managing and assisting the moves of staff between locations.

Property Surveyor is responsible for:

- The formalisation of legal documentation for all third party occupations within the LPT portfolio.
- The completion of sessional licences for all third parties within the LPT portfolio.
- Seeking landlord approval to alter leasehold premises.
- The acquisition of freehold or leasehold premises.
- The disposal of surplus freehold and leasehold assets.

3.4 Appropriate Managers

All Trust managers are responsible for ensuring compliance with this policy within their specific service/department, ensuring that:

- Risk assessments in relation to accommodation are carried out, recorded and reviewed regularly.
- Accommodation management procedures and safe working practices resulting from them are produced, documented and implemented for their area.
- Arrangements with regard to accommodation are included in induction and regular refresher training for all staff.
- They undertake regular monitoring of accommodation and record their findings.
- Ensure all staff receive local induction to the area and premises (See Appendix 3).
- Ensure that rooms that are allocated to the service are used efficiently and if no longer required are released or sessions released to the SPG to be reallocated, de-commissioned, sold or surrendered as appropriate.

3.5 Employees

Each employee or agent of the Trust has an individual responsibility to:

- Co-operate with the Trusts' management in the implementation of this policy.
- Report any accommodation issues to their supervisor/ manager.
- Undergo appropriate training as required.
- To ensure room bookings that are not needed are cancelled in a timely way to ensure efficient use.

3.6 Patients and Visitors

Patients and visitors will be advised of all procedures in place for accommodation management and will be expected to comply with all reasonable requests.

4.0 Decision Making

Decisions on the location of staff, teams, departments or services and the allocation of accommodation to them are the responsibility of the SPG in conjunction with Directors, Associate Directors and Service Managers.

The SPG will develop proposals for the teams and services concerned, with the aim of forging the best marriage of:

- Trust values and goals.
- Service aspirations.
- Statutory, NHS or professional requirements.
- Effective site utilisation
- Effective operation both for clinical and support services.
- Cost.
- Compromise with other competing requirements.

The SPG will review all areas with broad representation so that all competing requirements and priorities can be identified and taken into account. HR input may be required in some circumstances.

As most estate alterations, reconfigurations and moves require significant funding, all proposed alterations and moves will need to be consistent with the Trust's overall Estates Strategy and 3 year capital plan.

5.0 Accommodation

The Trust aims to provide fit for purpose accommodation that is safe and secure and meets all statutory, NHS and professional guidelines and requirements.

5.1 Ownership of Accommodation

The Trust occupies a varied number of properties with different tenancy and ownership arrangements. All properties are a corporate asset and no service, department, team or staff member "owns" any allocated accommodation, space or room.

All accommodation is allocated by SPG – properties (and rooms within properties) should only be occupied with the express agreement of SPG.

Teams or departments that solely occupy a specific building, floor or unit/space, and who do not fully utilise that accommodation, will be expected to share that space with other Trust teams or staff, or be relocated to ensure effective use of Trust accommodation. Good utilisation will vary for different uses but in clinical spaces services should aim to be using the space for at least 75% of each normal working day.

If a space is identified as being underutilised the team using the space will be given two months to improve the level of usage. If this cannot be achieved the

space will either be reallocated, if not being used at all or will be required to be shared with other services to improve levels of utilisation. Members of staff, teams, departments or services that move into space not allocated to them may find themselves summarily removed – in such cases the relevant service/department will be required to bear any costs associated with reinstatement.

It should be noted that there may well be Health & Safety reasons (which may not be immediately obvious) why properties/rooms should not be occupied and therefore occupation (without prior agreement) may represent a serious Health & Safety risk to occupants.

Other than SPG, no Trust staff member is authorised to offer accommodation or space within Trust properties to any other organisation/body or to allow other organisations/bodies to use Trust accommodation/spaces (even informally or infrequently).

5.2 Changes to Accommodation

In order to best meet the needs and priorities of the Trust, and the services it provides, SPG may relocate individuals, teams, departments or services, or re-allocate any of the accommodation they occupy.

Staff, teams, departments and services are expected to make a case for any accommodation changes they require through the relevant Directorate Business Manager. Requests will be put to the SPG (using the Accommodation Change Form – Appendix 1) for decision. Where necessary, decisions will be deferred to EMEC and potentially to higher decision making Committees or Boards as required.

Where a new demand for accommodation is identified, an Accommodation Change Form' should be completed.

The following principles will be applied when considering estate alterations, reconfigurations and moves and the allocation of space to staff, teams, departments and services:

- The reviewer/s must be objective.
- Compliance with other Trust strategies, plans or policies.
- Compliance with statutory, NHS or professional requirements or guidelines.
- The relative priority of competing calls on the same space.
- Clinical service needs will generally be given priority over other Trust functions, providing it relates to direct patient contact.
- Location – priority will be given to locating locality support services close to the clinical services they support. Trust-wide support services may be located in any suitable Trust estate, subject to the consideration of demonstrable close working relationships with related teams or departments.
- Financial implications of the proposed change/alteration.
- Whether or not the change facilitates/supports other initiatives (new ways of working, CIPS, potential disposals etc..).

- Whether or not the change creates a void/cost pressure.
- Whether or not capital funding is required.

5.3 Administrative Accommodation

Administrative accommodation will be configured to make the most effective use of properties available to the Trust:

- Agile and Hybrid/Blended working will be considered as 'standard practice' unless there are sound reasons why this cannot be adopted.
- Open plan offices will be considered the normal provision.
- Single offices will only be supplied where absolutely required for the post or where there are specific individual circumstances which require the Trust to provide individual accommodation as a reasonable adjustment to comply with the requirements of the Equality Act.
- Factors such as background noise suppression and adequate meeting space (casual or formal) will be taken into account when planning open plan offices.
- Administrative services should not use potential clinical space without due consideration.

Members of staff whose work patterns mean that they do not fully utilise a desk or office, may be required to hot-desk, or share a desk and/or office.

Agile working practices will be adopted in line with the Trust Agile Working Policy – this will also mean that staff may not be allocated a specific desk and/or office to work from.

Since the first Covid 19 lockdown the Trust has adopted hybrid / blended working from home as an effective way of remote working. It is envisaged that all staff based in non-patient facing / administrative offices will work to some degree in a hybrid/blended manner. In these circumstances the affected desk will be available to be shared.

Desks should not be personalised to facilitate shared usage and should be left clean and tidy at the end of each days use.

5.4 Clinical Accommodation

All clinical accommodation has been specifically designed and built for its existing use and has been allocated on this basis.

Where there is a significant change in service through decreased demand or a requirement to develop the service further, an Accommodation Change Form (Appendix 1) should be completed in order to trigger a review of the allocation of accommodation.

When service managers are considering the expansion or creation of a new team due regard must be given as to how that expansion can be accommodated within their existing space allocation. If this is not possible further discussion with Trust Finance teams will be required to secure

sufficient funds to meet the expanded property need. Only after this issue has been resolved should new staff positions be advertised.

Clinical accommodation reviews should be carried out by managers periodically or when a known change occurs, for example:

- Room usage is below 75% occupancy.
- Allocation of space does not provide sufficient space for increased service demand.
- Existing space does not meet the requirements of Statutory, NHS or professional requirements.
- Existing service provision is to cease.

5.5 Patient Treatment Areas

The ageing condition of some of the estate means that not all patient treatment areas are fit for purpose in relation to current requirements/guidelines. It is for this reason that regular reviews need to be carried out in order to ensure that the privacy and dignity of patients is maintained and that where possible single sex accommodation is achieved. See Policy for Privacy & Dignity of Adult Patients.

Where there is a significant change in service through decreased demand or a requirement to develop the service further an Accommodation Change Form (Appendix 1) should be completed in order to trigger a formal review of the allocation and provision of accommodation.

Formal reviews of patient treatment areas should be carried out by the Directorate Business Managers in conjunction with the service leads when:

- Usage is regularly below 50% occupancy.
- Allocation of space does not provide sufficient space for increased service demand.
- Existing space does not meet the requirements of Statutory, NHS or professional requirements.
- Existing service provision is to cease.

In all instances the Review of Accommodation below is to be followed.

6.0 Review of Accommodation

The Space and Property Manager/Property Officers will undertake accommodation reviews (including space utilisation studies) on a regular basis in order to ensure that the Trust is maximising its resources and to ensure that the demands of services are being met.

The outputs of these reviews may result in SPG re-allocating space or relocating teams to alternative accommodation.

The senior member of a team or department will be expected to act as the key point of liaison between their team, department or service. They will be expected to:

- Ensure that they fully participate in any work looking at estate utilisation or accommodation that might affect their staff, team, department or service.
- That the factors they wish taken into account in any decision making by the SMT & SPG are factual and objective.
- That any such decisions on relocation or re-allocation of accommodation are co-operated with in a timely and effective way.

The senior member of the team or department will be expected to be the main channel of communication. They will be expected to:

- Communicate decisions regarding accommodation changes fully to their team, including any briefing or guidance regarding the changes which may be perceived by staff to impact on their working environment, terms and conditions or other aspect of their working life.
- Communicate any information to their staff/team regarding the process and timescales for the decision-making and implementation of any options for accommodation changes that may affect them.
- Ensure that the views of their team/department are collated and represented in any forum or meeting where options for accommodation changes are being discussed, or in any written submissions made in respect of the consideration of such options.
- The Human Resources department will assist by providing briefing materials and ensuring that the person acting as the point of liaison/communication for a team/department is kept up to date with any decisions or considerations.

7.0 Alterations to Accommodation

Staff, teams, departments and services must not change or plan to change the accommodation they use through moving accommodation, altering accommodation (structurally or cosmetically) expanding into empty accommodation, or swapping an area of occupation with another service without the consultation and approval of the SPG (assisted by their Directorate Business Managers).

Changes to accommodation profiles can often impact on lease/tenancy agreements, statutory compliance considerations, cause Health & Safety risks and may conflict with other plans for the space and/or have financial implications,

SPG may also seek views from Infection Prevention and Control, Health and Safety Compliance Team, Capital Programme Managers and professional advisors with the Estates and Facilities team prior to making a recommendation or decision.

The SPG must be notified of changes in service that will result in space becoming vacant (ideally 6 months in advance) so that:

- Arrangements can be made to terminate leases (if possible).
- Plans can be made to re-allocate the space.
- Any cost savings through non-occupancy can be secured (Rates, Utilities, etc.).
- Appropriate plans can be made to co-ordinate the closure of the accommodation in a timely manner and arrange for storage to be made available for furniture and files.

The Trust may keep space empty to facilitate future accommodation changes. If a member of staff, team, department or service feels they could use empty space they should make a request to use the space to the SPG via their Business Manager representative.

8.0 Accommodation for Non-Trust Staff

The Trust does not generally provide accommodation for non-Trust staff, teams or services, unless:

- The members of staff are part of a joint or integrated team.
- The team or service, and their accommodation requirements, have been approved by the Trust Board, SMT and the accommodation is paid for. In such instances a formal and suitable tenancy agreement will be required.

9.0 Policy Monitoring and Review

To facilitate the monitoring of this policy managers at all levels are responsible for the ongoing monitoring of accommodation usage in their service / department / area of responsibility.

Accommodation reviews will be reported through the SMT via Directorate Business Manager/Premises Manager for Enabling.

This policy shall be reviewed at a minimum frequency of bi-annually. It should also be reviewed when substantial changes occur in the organisational structure of LPT or the property portfolio.

10 Training

There is no training requirement identified within this policy.

Accommodation Change Request Form

<u>CURRENT SITUATION</u>			
Site:	Dept & Division:	Provider:	Area/room no:
Current Use of room/s:eg: office/clinical etc:	Current no: of room/s:		No of staff at any one time:

Employee Relocation Health and Safety Checklist and Action Plan

This checklist must be completed on the first day working in your new environment following your relocation. The checklist is to ensure that all aspects of your local induction following your relocation have been adequately covered in accordance with statutory requirements, Trust policies and procedures. This checklist serves to complement essential information previously shared with you during your local induction and workplace orientation when you first commenced employment with the Trust. If you feel that you have not been provided with sufficient information or you require any further information please bring it to the immediate attention of your supervisor/line manager.

Staff name (please print): New work
area/location:

Date duties commenced in your new work area: .././.... Date checklist completed: .././....

Name of supervisor/line manager:

*Completed and signed checklists must be retained on the individual's personal file.

Topic	Yes	No	N/A	Things to consider	Action to be taken (by when and by whom)	Date action taken	Employee signature/Additional comments
Fire Safety							
Have you completed the Trust Fire Induction Checklist?							
Security							
Have you been instructed on the signing in/out procedures?							
Have you been issued with and instructed on how to use security swipe cards/fobs/keys?							
Have you been issued with access codes to the building?							
Have you been instructed on the security arrangements in place for accepting visitors (internal & external) to your work area?							
Have you been instructed on the opening/closing arrangements for the building/work area (including how to set and dis-engage any alarms)?							
Have you been instructed as to the use of image capturing equipment within your area of work e.g. cameras/video cameras, mobile phone's etc.?							

First Aid							
Have you been instructed who to contact in the event of First Aid being required?							
Do you know the location of your nearest First Aid box?							
Welfare facilities							
Have you been informed of the location and accessibility of the following:							
Toilets							
Rest Areas							
Local arrangements to purchase refreshments							
Staff Kitchen/Beverage & Food Preparation Areas							
Multi-faith/quiet rooms							
Car parking							
Display Screen Equipment (DSE) & Workstations							
Have you considered your DSE and Workstation risk assessment?							
Are any adjustments required?							
Equipment & Machinery							
Have you been provided with adequate instruction and/or training to operate all work equipment and machinery that you are expected to use?							
Risk Assessments and Safe Systems of Work							
Have you been shared the findings of all health and safety risk assessments pertaining to the environment/tasks/activities/processes within your work area? (including COSHH, manual handling, lone working), etc							
Access and Egress							
Are you able to safely enter and exit your work area?							
Have reasonable adjustments been made to facilitate any disabilities?							

To be completed by Supervisor/Line Manager

The NHS Constitution

NHS Core Principles – Checklist

Please tick below those principles that apply to this policy

The NHS will provide a universal service for all based on clinical need, not ability to pay. The NHS will provide a comprehensive range of services

Shape its services around the needs and preferences of individual patients, their families and their carers	☒
Respond to different needs of different sectors of the population	☐
Work continuously to improve quality services and to minimise errors	☒
Support and value its staff	☒
Work together with others to ensure a seamless service for patients	☒
Help keep people healthy and work to reduce health inequalities	☐
Respect the confidentiality of individual patients and provide open access to information about services, treatment and performance	☐

Appendix 5

Due Regard (Equality Analysis) makes sure that any negative impacts have been considered and ways to minimize the impact are specified

Due Regard Screening Template

Section 1	
Name of activity/proposal	Accommodation and space policy
Date Screening commenced	September 2023
Directorate / Service carrying out the assessment	Estates and Facilities
Name and role of person undertaking this Due Regard (Equality Analysis)	Richard Brown – Associate Director of Estates and Facilities
Give an overview of the aims, objectives and purpose of the proposal:	
AIMS: To provide an effective framework for the management of accommodation within the Trust	
OBJECTIVES: To ensure the most efficient use and utilisation of accommodation within the Trust	
Section 2	
Protected Characteristic	If the proposal/s have a positive or negative impact please give brief details
Age	
Disability	Yes – support individuals via reasonable adjustments to the working environment
Gender reassignment	
Marriage & Civil Partnership	
Pregnancy & Maternity	Yes – support individuals via reasonable adjustments to the working environment
Race	
Religion and Belief	
Sex	
Sexual Orientation	
Other equality groups?	
Section 3	
Does this activity propose major changes in terms of scale or significance for LPT? For example, is there a clear indication that, although the proposal is minor it is likely to have a major affect for people from an equality group/s? Please <u>tick</u> appropriate box below.	
☒ Yes	☐ No

High risk: Complete a full EIA starting click here to proceed to Part B		Low risk: Go to Section 4.	✓
Section 4			
If this proposal is low risk please give evidence or justification for how you reached this decision:			
The policy does not propose any working procedures that will disadvantage any persons (or groups of persons) with protected characteristics or contain any management processes that would disadvantage them in the use or allocation of space/accommodation within the Trust			
Signed by reviewer/assessor	Richard Brown	Date	February 2024
<i>Sign off that this proposal is low risk and does not require a full Equality Analysis</i>			
Head of Service Signed	Richard Brown	Date	February 2024
